Describe the educational and informational objective of the program and how it meets the definition of Core Programming			
<p>The Zula Patrol teaches science and astronomy facts to a target audience of 4-8 year old children. The Zula Patrol is a group of six animated aliens, headed by Captain Bula, who carry out a variety of scientific space missions. During their missions, Captain Bula and his crew often encounter their foe, Dark Truder, and his minion, Traxie, who are trying to take over the universe. Over the course of the story, the audience learns different facts about a specific space topic, such as stars, planets, orbits, moons, asteroids, comets, gravity, and space probes. The information is then highlighted during a segment where crew member Professor Multo delivers his Multo-Moments or summary of scientific facts from the story. Typically the stories also provide a social-emotional tag based on tolerance and non-violent conflict-resolution.</p>

Description of Program		
<p>Will & Dewitt uses fantasy, fun, music and rhyme to provide young viewers with an enticing mode for learning, growing and being. A little kid's world is apt to be replete with challenges and conundrums, as well as enjoyment and satisfaction. How does one deal with the possibility of monsters in a darkened room, the adventure of the first day of school, the necessity to mark your artwork with your name, the difficulty of finding something to do on a rainy day, or tying your shoes for the first time? On an episode by episode basis, Will and Dewitt, along with their human and animal friends face these challenges and more, often overcoming them by means of their own brand of ingenuity and perseverance, mixed with an ample dose of joy and humor. As they do so, Will and Dewitt point up the fact the it's O.K. to be fallible in the course of learning. The boy and his frog, just like real little kids, commonly make mistakes and errors of judgment which at the time may seem monumental, but in reality serve as motivations of growth, change and accomplishment. Along with this e=essengial skill-based and pro-social education, the series also bives viewers an opportunity to learn and practive those primary knowledge-based understanding and skills on which much furute learning is based. Along with Will and Dewitt, children work iwth the alphabet, language, numbers, directions, sequences, and colors.</p>

Description of Program			
<p>The overall educational goals and specific learning messages are integrated fully within the storylines, circumstances and personalities that comprise the GOGORIKI series. The core group of nine recognizable and relatable characters experience situations and face problems that are relevant to young viewers. The stories themselves do not feature a classic antagonist or pit good versus evil: instead, diverse topics are covered by placing the characters in a variety of situations and then viewers get to watch how they react based on their distinct backgrounds, knowledge and experience or lack thereof. The series provides a non-threatening arena from which the target audience can observe and learn based on the actions and experiences of others. The presentation of the various life lessons in a comedy context makes the learning fun, natural and engaging, resulting in an overall immersive, organic and effective learning experience.</p>
